Research Papers

Rapid screening for deletion mutations in the hprt gene using the polymerase chain reaction: X-ray and α-particle mutant spectra
S.Z. Aghamohammadi, T. Morris, D.L. Stevens and J. Thacker (UK) 1

Structure–activity relationships of aromatic diamines in the Ames *Salmonella typhimurium* assay. Part II
G. Kalopissis (France) 9

Directly acting geno- and cytotoxic agents from a wild mushroom *Dermocybe sanguinea*
A. Von Wright, O. Raatikainen, H. Taipale, S. Kärenlampi and J. Mäki-Paakkanen (Finland) 27

Lower birth weight of offspring born after self-poisoning of parent
A.E. Czeizel, Á. Szabados and É. Susánszky (Hungary) 35

Screening for mutations in human HPRT cDNA using the polymerase chain reaction (PCR) in combination with constant denaturant gel electrophoresis (CDGE)
B. Smith-Sørensen, E. Hovig, B. Andersson and A.-L. Børresen (Norway, Sweden) 41

Allelic losses in mutations at the *aprt* locus of human lymphoblastoid cells
A. Fujimori, A. Tachibana and K. Tatsumi (Japan) 55

Visible mutations induced by P–M hybrid dysgenesis in *Drosophila melanogaster* result predominantly from *P* element insertions
E.S. Norris and R.C. Woodruff (USA) 63

Comparative toxicity and mutagenicity of *N*-hydroxy-2-acetylaminofluorene and 7-acetyl-*N*-hydroxy-2-acetylaminofluorene in human lymphoblasts
J.R. Babson, N.E. Gavitt, L.W. Boteju and P.E. Hanna (USA) 73

Enhancing effects of heterocyclic amines and β-carbolines on the induction of chromosome aberrations in cultured mammalian cells
Y.F. Sasaki, H. Yamada, K. Shimoi, N. Kinae, I. Tomita, H. Matsumura, T. Ohta and Y. Shirasu (Japan) 79

Toxicological significance of dog liver cytochrome P-450: examination with the enzyme expressed in *Saccharomyces cerevisiae* using recombinant expression plasmid
H. Fukuta, H. Ohi, T. Uchida, M. Komori, M. Kitada and T. Kamataki (Japan) 97

Telomere association of human chromosomes induced by aphidicolin
A. Kuwano, S. Matsuura and T. Kajii (Japan) 107

Effects of antioxidants on induction of micronuclei in rat peripheral blood reticulocytes by potassium bromate
K. Sai, M. Hayashi, A. Takagi, R. Hasegawa, T. Sofuni and Y. Kurokawa (Japan) 113

Persistence of chromosomal lesions induced in actively proliferating bone marrow cells of the mouse
A. Russo, A. Stocco, L. Renzi, N. Bianco and F. Majone (Italy) 119

Strand specificity for mutations induced by (+)-anti BPDE in the hprt gene in human T-lymphocytes
B. Andersson, S. Fält and B. Lambert (Sweden) 129

Forward mutations and DNA–protein crosslinks induced by ammonium metavanadate in cultured mammalian cells
M.D. Cohen, C.B. Klein and M. Costa (USA) 141

X-Ray-induced specific-locus mutations in the *ad-3* region of two-component heterokaryons of *Neurospora crassa* XI. Heterozygous effects of gene/point mutations of genotype *ad-3A* or *ad-3B*
F.J. de Serres, L.K. Overton and B.M. Sadler (USA) 149

Analysis of X-ray-induced HPRT mutations in CHO cells: Insertion and deletions
J.C. Fuscoe, L.J. Zimmerman, A. Fekete, R. Woodrow Setzer and B.J.F. Rossiter (USA, Hungary) 171

Xenobiotic-metabolizing enzymes and benzo[*a*]pyrene metabolism in the benzo[*a*]pyrene-sensitive mutant strain of *Drosophila simulans*
S.Y. Fuchs, V.S. Spiegelman, R.D. Safaev and G.A. Belitsky (Russia) 185

Natural antioxidants as inhibitors of oxygen species induced mutagenicity
M. Minnunni, U. Wolleb, O. Mueller, A. Pfeifer and H.U. Aeschbacher (Switzerland) 193

Mechanism of antimutagenicity of wheat sprout extracts
B. Peryt, T. Szymczyk and P. Lesca (Poland, France) 201
Enhancement of the mutagenicity of polyphenols by chlorination and nitrosation in *Salmonella typhimurium*
J.-K. Lin and S.-F. Lee (Taiwan) 217
Radioprotection by caffeine pre- and post-treatment in the bone marrow chromosomes of mice given whole-body γ-irradiation
Z. Farooqi and P.C. Kesavan (India) 225
Mutagenic activation of aflatoxin B_1 by pulmonary, renal, and hepatic cytochrome P450s from rats
S. Imaoka, S. Ikemoto, T. Shimada and Y. Funae (Japan) 231
Radioprotective action of glycerol and cysteamine on inactivation and mutagenesis in Salmonella tester strains after γ- and heavy ion irradiation
S.G. Basha, E.A. Krasavin and S. Kozubek (Russia, Czechoslovakia) 237
Activation of promutagens by porphyrinic biomimetic systems
J. Rueff, A. Rodrigues, A. Laires and J. Gaspar (Portugal) 243
Anticlastogenic effects of a polyvitamin product, 'Pharmavit', on γ-ray induction of somatic and germ cell chromosome aberrations in the mouse
D.K. Benova (Bulgaria) 251
Enhancement and reduction by methylated oxypurines of the frequencies of chromatid aberrations induced by camptothecin in root-tip cells of *Vicia faba*
B.A. Kihlman and H.C. Andersson (Sweden) 259
Effect of vitamin A dietary intake on in vitro and in vivo activation of aflatoxin B_1
S. Decoudu, P. Cassand, M. Daubèze, C. Frayssinet and J.F. Narbonne (France) 269
Inhibition of the metabolism of mutagens occurring in food by arachidonic acid
T.A. Ho, T.M. Coutts, I.R. Rowland and A.J. Alldrick (UK) 279
The distribution of UV damage in the *lacI* gene of *Escherichia coli*: Correlation with mutation spectrum
E. Sage, E. Cramb and B.W. Glickman (Canada) 285
A contribution to the study of the structure–mutagenicity relationship for α-dicarbonyl compounds using the Ames test
L. Dorado, M. Ruiz Montoya and J.M. Rodríguez Mellado (Spain) 301
Effects of sodium selenite and caffeine on mutagenesis induced by *N*-methyl-*N*-nitrosourea, *N*-methyl-*N'*-nitro-*N*-nitrosoguanidine and aflatoxin B_1 in *S. typhimurium*
R. Balansky (Bulgaria) 307
Nalidixic acid-resistant V79 cells with reduced DNA topoisomerase II activity and amplification prone phenotype
A. Di Leonardo, A. Maddalena and P. Cavolina (Italy) 319

Contents, Vol. 269 (1992) 329
